Subject: OCTOBER GRA MEETING

Dear Mr. Mayer,

Susan Garcia and I thank you for agreeing to participate in the California Groundwater Resource Association meeting on October 23, 1998. The meeting is scheduled for October 22 and 23, 1998, at the Walnut Creek Marriott Hotel, in Walnut Creek, California. The theme for the conference is "California Groundwater 2000+ Efficient and Effective Usage."

A Perchlorate Update Session, to last approximately four hours, is scheduled for Friday October 23, 1998. The Update Session is anticipated to start at 08:00 and last through 12:00. We would like to have you talk about the occurrence of perchlorate (on a national or regional level) and anticipate your talk would follow Lt. Col. Dan Roger's at 08:15 - 08:45. Each of the seven speakers will be allotted thirty minutes to speak and they may decide how they wish to use their time (e.g., whether to speak for twenty minutes and take questions for the next ten minute or to speak for the whole thirty minutes and take no questions).

If you would send me a short biography and abstract, I can forward those to Susan so that they may be included in the Proceedings for the Conference. Please feel free to call me with any questions/concerns at (714) 379-1157 or e-mail me at envdoc@earthlink.net.

Sincerely,

James Clark
